

Brian Allison

Brian joined the UK Civil Service 42 years ago where he has contributed to the development of UK energy policy since 2002; he joined the BEIS CCUS Team in 2010 and currently leads on CCUS R&D, innovation and international collaboration policy.

Brian is a co-lead of the CCUS Clean Energy Ministerial Initiative (with the USA, Saudi Arabia and Norway) where he is pursuing, in line with the BEIS Clean Growth Strategy, opportunities to encourage the development of CCUS internationally. Brian is also the co-lead (with Saudi Arabia) for the Mission Innovation Carbon Capture and Storage Challenge. He represents the UK on the Technical Group of the Carbon Sequestration Leadership Forum (CSLF) and the IEA Greenhouse Gas R&D Programme (IEAGHG). He is also a member of the European CCS Laboratories Infrastructure (ECCSEL) General Assembly.

Brian is the UK lead and main contact point for the CCUS “ACT” (Accelerating CCUS Technologies) grant programme where he works with a number of international partners to develop CCUS R&D projects.

Brian is a part time Associate Lecturer with The Open University, where he tutors on their Renewable Energy and Communication and Information Technology courses.
